

Key Benefits

- Identify and divest unused assets
- Tie work order expenses to specific assets
- Establish accountability for asset ownership and responsibility
- Maintain a complete asset audit trail of movement and ownership
- Strengthen Sarbanes-Oxley compliance
- Budget more effectively using asset performance and cost data
- Meet asset warranty and service contracts
- Identify "shrink" caused by loss/theft
- Avoid costly breakdowns

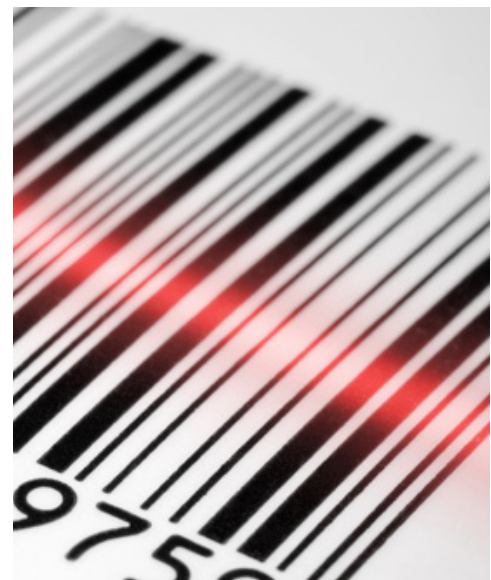

Although assets are shown on your balance sheets, do you really understand the full life cycle cost or know the location and warranty status of those assets? Verian Technologies' Asset Manager helps you intelligently manage the life cycle cost and physical tracking of all assets. Accessible from any Web browser, Asset Manager helps you manage the complete asset life cycle from acquisition to disposal, providing you with the true total cost of your company's assets.

What Can the Solution Do for Me?

Life Cycle Asset Costing

Asset Manager allows you to manage each phase of an asset's life from procurement to disposal. Take advantage of the cost savings opportunities at each phase of an asset's life to gain a higher return on asset investment.

Asset Manager provides pertinent data and visibility into your asset base enabling you to make intelligent decisions during the acquisition of new assets. Financial information is tracked real-time, enabling your organization to get a clear idea of the investment in your assets.

Service & Maintenance

Generate work orders within the system and print them or send them automatically via fax or e-mail to vendors or internal technicians. Communicate electronically during the service process using the optional vendor portal, which also accommodates electronic invoicing to reduce paperwork. Ensure that regular maintenance work is completed on time to meet warranty or service contract stipulations.

WorkOrder		WO # 42	
Printer Maintenance

2	Replace Ink toner		

Generate work orders within Asset Manager and print them or send them automatically via fax or e-mail to a vendor or internal technician.

Physical Tracking

Track the detailed location of each asset and keep a thorough audit trail of all moves. Assign ownership of assets to increase accountability for loss/theft prevention. Also, integrate with IT asset "auto-discovery" tools to quickly inventory software installations across your enterprise. Make sure temporarily out-of-service assets are re-deployed effectively when appropriate.

Financial Management

Choose among multiple depreciation methods for unlimited tax books. Asset Manager can integrate with most general ledger systems to make posting depreciation transactions easy. Accurately calculate this key indicator of your organization's financial health. Take full advantage of asset warranties by tracking coverage in the system. Make more effective strategic investment decisions by gaining better visibility into all assets' historical, current and projected utilization and performance.

About Verian

Verian helps mid- and large-sized organizations reduce costs and increase efficiency with intelligent, easy-to-use solutions that automate the entire purchase-to-pay process including procurement, invoice processing, employee reimbursements and asset management – capturing all spend intelligence in a single database for analysis. Verian was founded in 1997 and is headquartered in Charlotte, N.C. The company's clients include Macy's, Recreational Equipment Inc (REI), Boeing, Allstate Insurance, PETCO and General Nutrition Centers (GNC).
